Scheduled Maintenance

When you have HOLT® Scheduled Maintenance (also known as a Customer Support Agreement, or CSA), you can be sure that your generator sets and electrical components are being serviced using Caterpillars® manufacturing standards, which are some of the industry's highest standards. They are your guarantee of continued high quality performance and longer equipment life.

Maximize Your Generator's Performance

Whether your system is used for standby power, peak shaving, co-generation, prime power or pumping, HOLT® Scheduled Maintenance keeps you worry free and your generator power system trouble free. Working with our vast Texas territory and field service capabilities, we can respond to your needs regardless of your location. With one call, we are able to dispatch technical service or assist with one-on-one verbal communications with your site location.

HOLT® Scheduled Maintenance offers rental benefits

You are linked with the unequaled resources and full product support of the CAT® Dealer Network. You will receive access to HOLT's® extensive Texas inventory as well as the worldwide CAT® rental inventory of generator sets and chillers to meet your specific needs. HOLT's® single point of contact brings you rental advantages like:

The industry's largest and most modern rental fleet.

Reliable equipment built exclusively for rental.

24/7 turnkey service.

One contact for your rental and support needs.

HOLT® Scheduled Maintenance services all manufacturers and models

The HOLT® Scheduled Maintenance program provides support for all manufacturers and models of generator sets, transfer switches, UPS and switchgear. As a HOLT® customer, you are a part of one of the most powerful support networks in the world.

Why choose HOLT® Scheduled Maintenance?

Specialized EPG trained and experienced technicians.

A single point of contact for generator maintenance, service and rental.

On call 24/7.

Proactive and regular maintenance increases system reliability and protects your investment.

Consistent maintenance procedures, scheduling, and documentation.

Flexibility to fit your unique industry needs including diverse equipment types and geography.

Covers all manufacturers and models of generators and electrical components.

24 Sales/Parts/Service Locations.

400+ Caterpillar® Certified Technicians.
